## **DETAILED ACTION**

This is a notice of a non-responsive reply to the requirement for restriction and election, dated 10/22/04 for application number 10/787,271, Part and Supporting an Item of Equipment, Comprising Support Ribs and Method of Molding said Part, filed on 2/26/04. Claims 1-40 are pending.

## Election/Restrictions

The amendment filed on 12/2/04 which elects claims 1-25 and 27-29 present claims drawn to a non-elected Species is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected species because the action required an election between Inventions I and II AND an election of species between Figs. 1-5 and 10 and 11.

The applicant has elected Invention I, including a proper withdrawal of claims 30-40 for being drawn to a non-elected invention. The Invention election was made with traverse. The response filed 12/2/04 is considered non-responsive because the applicant has not elected between species I or II in addition to electing Invention I. Species I, reads on claims 1-24 and Species II reads on claims 25 and 27-29.

An election between species is required in order for the amendment to be considered responsive.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the

omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.

A telephone call was made on 12/30/04, Ronald Courtney, to correct the above response, but did not result is a proper election.
